

# wilson Stackable Safe Trays

## ALL PURPOSE SAFETY TRAYS

All Wilson Safetrays are stackable therefore reducing the amount of room required on stock shelves whilst allowing for ease of transport and less damage.

Wilson trays are manufactured in four materials; Galvanised, Zinc, Copper and Plastic and a wide range of sizes will cover most requirements however other sizes can be made to client specifications.

| Part ID | Descriptions             |                  |
|---------|--------------------------|------------------|
| T001B   | SAFETY TRAY - GALVANISED | 450 x 450 x 50   |
