

wilson SuperX™

INSTANTANEOUS ELECTRIC WATER HEATER

The Wilson SuperX is a mains pressure three phase electric instantaneous hot water heater. The Wilson SuperX has no storage and is energy efficient as it only heats water as required and will continually heat as water passes over the elements. The unit does not require a safetray or water saving devices.

The Wilson SuperX can be installed virtually anywhere and will supply enough hot water for small domestic dwellings, shops or factory amenities.

domestic hot water

- energy efficient
- standard replacement
- pressure relief valve
- 18amp 3 phase
- 2 year domestic and commercial warranty*
- quiet operation
- watermark approved
- australian made
