Electric & Solar Storage
Mains Pressure Stainless Steel

Model	MPE160	MPE250	MPE315
Delivery (L)	160L	250L	315L
PTR Setting	850kPa	850kPa	850kPa
Maximum Supply Pressure	750kPa	750kPa	750kPa
Approx. Weight Empty	30kg	50kg	80kg
Max. Temperature	80°C	80°C	80°C
Voltage	240V	240V	240V
Elements	1 x 3.6kW	1 x 3.6kW	1 x 3.6kW
Rec. Temperature	70°C	70°C	70°C
Dimension (H) mm	1190	1690	2015
Dimension (A) mm	707	1222	1550
Diameter mm	620	620	620

qudosTM Design Data

- 315, 250 & 160 Litre
- MEPS Compliant
- Adjustable contact thermostat with over-temperature cut out
- 10 year warranty*
- Outer Casing - Dune Colorbond®

* Refer to warranty card for details.

Calorifier Finned Tube Heating Coils

These highly efficient heat exchange coils are ideal for heating domestic hot water from renewable energy or waste heat sources. The finned tube heat exchange coil is designed to deliver as much energy as possible into the tank.

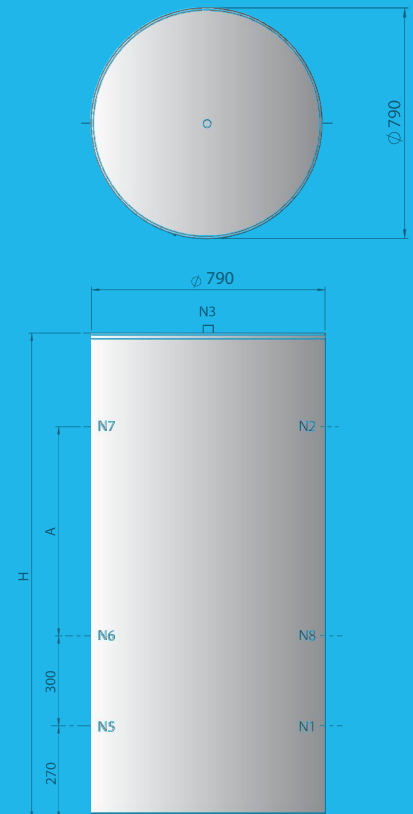

- High thermal performance output
- Compact design
- Various kW ratings available
- Multiple coils per vessel
- Ready-to-install by Table 'E' flange
